TECHNICAL SKILLS

JavaScript	7+ years
AWS	6+ years
Node.js	4+ years
TypeScript	4+ years
PostgreSQL	4+ years
GraphQL	3+ years
RESTful APIs	3+ years
React	2+ years
MongoDB	2+ years
DynamoDB	1 year

CERTIFICATIONS

AWS Certified Architect Associate
Amazon Web Services

AWS Certified Developer Associate
Amazon Web Services

EDUCATION & TRAINING

Master of Science, Information Technology
Kaplan University
September 2015
Concentration in Information Security and Assurance

Bachelor of Science, Information Technology
Rochester Institute of Technology
November 2012
Minor in Criminal Justice

Full-Stack Web Development Bootcamp
The Firehose Project
January 2018

ACTIVITIES & ACHIEVEMENTS

Eagle Scout
Boy Scouts of America

>Professional Summary

Senior full-stack developer with expertise in Node.js, React, TypeScript, and AWS. Specializes in back-end architecture, API design, NoSQL/SQL databases, and IaC with a focus on scalable, maintainable code.

>Professional Experience

Senior Full-Stack Software Engineer
Quest Mindshare
Remote • 12/2024 - 06/2025
- → Enhanced an existing full-stack application using React (hooks, context) and TypeScript by developing reusable UI components
- → Integrated GraphQL APIs using a backend-for-frontend (BFF) approach and worked with both relational and NoSQL databases
- → Refactored codebase to improve code quality while maintaining backward compatibility of existing functionality
- → Collaborated with product owners to define software requirements for new features

Full Stack Software Developer
Progress Residential
Remote • 10/2022 - 11/2024
- → True full-stack developer with a passion for back-end development, working with Node.js, AWS, MongoDB, and React stack
- → Led the back-end community of practice, coordinated production releases, and integrated third-party payment APIs
- → Contributed to AWS architecture design and provided off-hours support for critical systems
- → Played a key role in designing and implementing a new customer portal project
- → Developed unit tests using Jest and worked extensively with Jira platform and agile methodologies

Software Engineer Full Stack
Aerosafe Global
Remote • 11/2021 - 08/2022
- → Developed and maintained software for the Cold Storage supply chain using AWS services
- → Worked with AWS Lambda Functions, Cloud Formation, API Gateway, Secrets Manager, DynamoDB, and RDS
- → Utilized Node.js, TypeORM, PostgreSQL, and TypeScript on the back end with Angular frontend
- → Built scalable microservices architecture for supply chain management systems

Software Developer Engineer
Medisked
Rochester, NY • 01/2018 - 11/2020
- → Worked on a care provider management product using .NET Web Forms focused on improving the life of individuals with intellectual or developmental disabilities
- → Responsible for a data warehouse and business intelligence platform utilizing .NET MVC
- → Implemented and designed projects utilizing AWS resources including Lambda, API Gateway, Secrets Manager, and CloudFormation
- → Integrated with customizable .NET MVC based survey tool for enhanced user experience

System Administrator
Modis Contract at Xerox
Rochester, NY • 09/2013 - 01/2015
- → Provided application support for public development and production VMware-based virtualized environments
- → Managed Microsoft Server and Microsoft SQL Server along with maintenance and script-based tasks
- → Responsible for closing day-to-day service tickets and identified opportunities to streamline tasks through scripting
- → Delivered comprehensive hardware and software technical support for end-users

Field Service Engineer
Synergy Global Solutions
Rochester, NY • 04/2013 - 06/2013
- → Provided hardware and software technical support for end-users in field service capacity
- → Diagnosed and resolved technical issues across various hardware and software platforms
- → Maintained detailed service records and communicated technical solutions to clients
